In response to the request given by the Federal Communications Commission's (Commission) August 14, 2003, Hearing Aid Compatibility (HAC) Report and Order (WT Docket No. 01-309), Sanyo Electric Co., Ltd. is submitting the following report.

Required Information:

- (1) digital wireless phones tested;
- (2) laboratory used;
- (3) test results for each phone tested;
- (4) identification of compliant phone models and ratings according to ANSI C63.19;
- (5) report on the status of product labeling;
- (6) report on outreach efforts;
- (7) information related to retail availability of compliant phones;
- (8) information related to incorporating hearing aid compatibility features into newer models of digital wireless phones;
- (9) any activities related to ANSI C63.19 or other standards work intended to promote compliance with this Order;
- (10) total numbers of compliant and non-compliant phone models offered as of the time of the report; and
- (11) any ongoing efforts for interoperability testing with hearing aid devices.

Sanyo's Status as of May 17, 2005:

- (1) SCP-5600 and SCP-200 are planned to be tested according to U3 standard on 16-20th and 23-27th May, respectively.
- (2) PCTEST Engineering Laboratory, Inc.
- (3) We have not obtained any test results according to U3 standard yet but we will have same by the end of May 2005.
- (4) At present we have no compliant model with U3 standard but we hope to have same by the end of June 2005.
- (5) We are currently preparing to enable the U3 compliant handsets delivered after 16th September 2005 have related labeling on the exterior of product packages. At present we are waiting for a final draft for product labeling from FCC (workshop held on 16th

HAC Report to FCC

May 05, presumably).

(6) We are currently considering it.

(7) We expect that U3 compliant phones SCP-5600 and SCP-200 will be available in the retail market in September 2005.

(8) We are incorporating U3 standard hearing aid compatibility features in models SCP-5600 and SCP-200.

(9) We are currently conducting internal evaluation for two models according to U3 standard. After the evaluation, and then performing test at PCTEST Engineering Laboratory, Inc. this month, we will apply for FCC grant in compliance with U3 standard.

(10) Models currently offered in United States are 7 models in total

<Model name>

1. SCP-5600
2. SCP-200
3. SCP-2300
4. SCP-8200
5. SCP-4920
6. SCP-7300
7. SCP-7400

U3/U3T Compliant/non-compliant are unknown at this time.

(11) At present, we are conducting an evaluation regarding the handsets' compliance with U3 standard internally. After evaluation, we will consider interoperability testing with hearing aid devices.

If you have any question regarding the above report, please do not hesitate to ask us.
